<p>We live in an area that is not affluent and raising funds is difficult. We spend a lot of time raising funds for our chapter. We try very hard every year to recognize outstanding educators in our area with an event yearly. We also raise funds to give school supplies to new teachers at the beginning of each year. In addition, we have given a \$1,000 scholarship to a local teacher working on a master's degree, national boards, or a portfolio.</p>			OTHER SUGGESTIONS	
			<p>Increase dues to \$5.00 per person yearly for this. Invite vendors to State meetings willing to give percentage of sales to non dues.</p>
